

OBSERVERS PLAYS OF INTEREST WEEK #3

Clip 1—the crew accordion mechanics are solid and they do a good job of reacting to a player's helmet coming off

Clip 2—Long pass for a TD down the far sideline with solid communication between the wing official and the BJ.

Clip 3—Goal line mechanics are strong by the HL and he continues officiating and catches a dead ball Personal Foul.

Clip 4—LJ allows a sweep to go past him and trails the play as he should do and gives a wind the clock and then stop the clock signal. Nicely done.

Clip 5—this is just a reminder of a new mechanics on an anticipated onside kick—the Umpire moves up to K's kick line with the LJ staying on R's restraining line.
